PROFILE

Passionate Front-End Developer and Software Engineering graduate experienced in building responsive, scalable, and user-focused web applications using Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, and Tailwind CSS. Skilled in API integration, reusable component design, asynchronous programming, responsive layouts, and clean UI implementation. Possesses a strong foundation in Object-Oriented Programming (OOP), data structures, algorithms, and problem solving. Explore my dynamic work and interactive projects on my [Personal Portfolio](#).

TECHNICAL SKILLS

Frontend:	Angular, JavaScript ES6+, TypeScript, HTML5, CSS3, SCSS, SASS, Bootstrap 5, Tailwind CSS, Responsive Design
Core Concepts:	API Integration, RxJS, DOM Manipulation, Asynchronous JavaScript, Component-Based Architecture
Programming:	C, C++, Java, Python, Object-Oriented Programming (OOP), Data Structures, Algorithms
Tools & Hosting:	Git, GitHub, VS Code, Chrome DevTools, Figma, Vercel, Regex Validation
Databases:	MongoDB Basics, MySQL Basics

EDUCATION

Bachelor of Software Engineering

Graduated: June 2026

Faculty of Computers and Artificial Intelligence, Capital University | Cairo, Egypt

GPA: 3.3 / 4.0 (Very Good)

PROFESSIONAL EXPERIENCE

Programming Instructor

October 2024 - Present

3C - Creative Children Community | Cairo, Egypt

- Teach programming fundamentals using Scratch, Python, HTML, CSS, and App Inventor.
- Create interactive lessons that simplify coding, logic, and problem-solving concepts for students.
- Guide students in building practical games, applications, and websites through project-based learning.
- Prepare educational materials and provide personalized support based on student learning levels.

PROJECTS

LoCum - Healthcare Staffing Platform *(Freelance Project)*

 [Live Demo](#)

[Angular](#), [TypeScript](#), [SCSS](#), [API Integration](#)

A healthcare staffing platform that helps care homes and nursing facilities request qualified PSWs (Personal Support Workers) efficiently through a responsive and modern user interface.

- Co-developed responsive healthcare staffing interfaces and implemented reusable front-end components alongside Abdulrahman Mohamed.
 - Integrated APIs for dynamic data handling and smooth user interactions.
-

EvoShop *(Route Academy Project)*

 [Live Demo](#)

[Angular](#), [TypeScript](#), [RxJS](#), [Tailwind CSS](#)

Full-featured e-commerce web application built with Angular featuring authentication, cart management, dynamic API integration, and user-focused payment workflow simulation.

Movie Night *(ITI Project)*

 [Live Demo](#)

[Angular](#), [TypeScript](#), [Bootstrap](#), [API Integration](#)

Movie discovery web application integrated with external movie APIs to fetch and display real-time movie listings, handling asynchronous data loading and error states smoothly.

Q&A Platform *(Route Academy Project)*

 [Live Demo](#)

[JavaScript](#), [HTML5](#), [CSS3](#), [DOM Manipulation](#)

An interactive Questions & Answers quiz platform featuring dynamic behavior, heavy DOM manipulation for real-time score calculation, and automated instant feedback loops.

Weather App *(Route Academy Project)*

 [Live Demo](#)

[JavaScript](#), [Bootstrap](#), [Async API](#)

Interactive weather application using asynchronous JavaScript to fetch, retrieve, and render live weather updates dynamically based on location data.

Bookmark App *(Route Academy Project)*

 [Live Demo](#)

[JavaScript](#), [LocalStorage](#), [CRUD](#), [Bootstrap](#)

Web application built to handle full CRUD operations for saving, managing, and indexing custom browser bookmarks using browser LocalStorage.

Mealify *(Route Academy Project)*

 [Live Demo](#)

[HTML5](#), [CSS3](#), [Keyframes](#), [Dark Mode](#)

A responsive creative restaurant landing page featuring intricate CSS keyframe animations, responsive grid design, and dark mode theme switching toggle.

[HTML5](#), [Tailwind CSS](#), [Responsive Design](#)

A highly polished, ultra-responsive e-commerce landing page focused on modern aesthetic UI design layouts and optimized fluid components built using Tailwind CSS.

Smart Login System *(Route Academy Project)* [Live Demo](#)[JavaScript](#), [LocalStorage](#), [Regex Validation](#)

Client-side secure authentication system utilizing LocalStorage for credential persistence and advanced Regex patterns for strict input form validation.

Bakery *(Route Academy Project)* [Live Demo](#)[HTML5](#), [CSS3](#), [Bootstrap 5](#), [Grid System](#)

A fully responsive, professional bakery catalog website meticulously structured with the Bootstrap 5 responsive layout and grid standard utilities.

COURSES & CERTIFICATIONS

Front-End Web Development - Route Academy

March 2025 - September 2025

- Deeply studied Angular, JavaScript, TypeScript, SASS, Bootstrap, Tailwind CSS, APIs, Git, hosting, and async architecture.
- Successfully developed and deployed multiple production-ready front-end web applications.

MEAN Stack Development - Information Technology Institute (ITI)

July 2025 - August 2025

- Specialized in full-stack web development with a primary focus on mastering **Angular** for front-end architecture.
- Developed scalable web applications using the MEAN stack (MongoDB, Express.js, Angular, Node.js).

VOLUNTEER & EXTRACURRICULAR ACTIVITIES

- **Helwan ICPC Community:** Practiced competitive programming and rigorous problem solving using C++.
- **Training Camp - Helwan:** Solved complex algorithmic challenges using C.
- **Minders'23 Workshop:** Completed introductory mentorship workshop in HTML, CSS, and modern JavaScript.
